

2. Section 20.03 is amended by adding the following definitions in alphabetical order to read as follows:

§ 20.3 Definitions.

Automatic Number Identification. A system which permits the identification of the caller's telephone number.

* * * * *

Code Identification. A Mobile Identification Number for calls carried over the facilities of a cellular or Broadband PCS licensees, or the functional equivalent of a Mobile Identification Number in the case of calls carried over the facilities of a Specialized Mobile Radio Services.

* * * * *

Mobile Identification Number. A 34-bit number that is a digital representation of the 10-digit directory telephone number assigned to a mobile station.

* * * * *

Pseudo Automatic Number Identification. A system which identifies the location of the base station or cell site through which a mobile call originates.

Public Safety Answering Point. A point that has been designated to receive 911 calls and route them to emergency service personnel.

* * * * *

3. Section 20.18 is added to read as follows:

§ 20.18 911 Service.

(a) The following requirements are only applicable to Broadband Personal Communications Services (part 24, subpart E of this chapter) and Cellular Radio Telephone Service (part 22, subpart H of this chapter), Geographic Area Specialized Mobile Radio Services in the 800 MHz and 900 MHz bands (included in part 90, subpart S of this chapter) and offer real-time, two-way voice service that is interconnected with the public switched network, and Incumbent Wide Area SMR Licensees.

(b) As of October 1, 1997, licensees subject to this section must process all 911 calls which transmit a Code Identification and must process all 911 wireless calls which do not transmit a Code Identification where requested by the administrator of the designated Public Safety Answering Point which is capable of receiving and utilizing the data elements associated with 911 service.

(c) As of October 1, 1997, licensees subject to this section must be capable of transmitting 911 calls from individuals with speech or hearing disabilities through means other than mobile radio handsets, e.g., through the use of Text Telephone Devices.

(d) As of April 1, 1998, licensees subject to this section must relay the telephone number of the originator of a 911 call and the location of the cell site or base station receiving a 911 call from any mobile handset or text telephone device accessing their systems to the designated Public Service Answering Point through the use of Pseudo Automatic Number Identification and Automatic Number Identification.

(e) As of October 1, 2001, licensees subject to this section must provide to the designated Public Service Answering Point the location of a 911 call by longitude and latitude within a radius of 125 meters using root mean square techniques.

(f) The requirements set forth in paragraphs (d) and (e) of this section shall be applicable only if the administrator of the designated Public Service Answering Point has requested the services required under those paragraphs and is capable of receiving and utilizing the data elements associated with the service, and a mechanism for recovering the costs of the service is in place.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 285

[I.D. 072996C]

Atlantic Tuna Fisheries; Closure

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Fishery closure.

SUMMARY: NMFS closes the Angling category fishery for large school and small medium Atlantic bluefin tuna (ABT). Closure of this fishery is necessary because the annual quota of 100 metric tons (mt) of large school and small medium ABT allocated to the Angling category is projected to be attained by July 31, 1996. The intent of this action is to prevent overharvest of the quota established for this fishery.

EFFECTIVE DATE: The closure is effective from 2330 hours local time July 31 through December 31, 1996.

FOR FURTHER INFORMATION CONTACT: Bill Hogarth, 301-713-2347.

SUPPLEMENTARY INFORMATION: Regulations implemented under the authority of the Atlantic Tunas

Convention Act (16 U.S.C. 971 *et seq.*) governing the harvest of ABT by persons and vessels subject to U.S. jurisdiction are found at 50 CFR part 285.

Implementing regulations for the Atlantic tuna fisheries at 50 CFR 285.22 provide for a total annual quota of large school and small medium ABT (measuring between 47 inches (119 cm) and 73 inches (185 cm) total curved fork length) to be harvested from the regulatory area. The Assistant Administrator for Fisheries, NOAA (AA), is authorized under § 285.20(b)(1) to monitor the catch and landing statistics and, on the basis of those statistics, to project a date when the catch of ABT will equal any quota under § 285.22. The AA is further authorized under § 285.20(b)(1) to prohibit fishing for, or retention of, ABT by those fishing in the category subject to the quota when the catch of tuna equals the quota established under § 285.22. The AA has determined, based on the reported catch and estimated fishing effort, that the annual quota of large school and small medium ABT will be attained by July 31, 1996. Fishing for, catching, possessing, or landing any large school or small medium ABT must cease by 2330 hours local time on July 31, 1996.

However, anglers may continue to fish for ABT 47 inches (119 cm) or greater under the NMFS tag and release program (50 CFR 285.27). The Angling category fishery for school ABT (measuring between 27 inches (69 cm) and 47 inches (119 cm)) in the waters off Delaware and south was previously closed on July 25, 1996 (61 FR 38656, July 25, 1996). The Angling category fishery for school ABT for waters off New Jersey and states north (north of 38°47' N. lat.) is not affected by this closure, and continues to remain open.

Classification

This action is taken under 50 CFR 285.20(b) and 50 CFR 285.22 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 971 *et seq.*

Dated: July 29, 1996.

Richard W. Surdi,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.
